- **Expertise:** HTML5, CSS3, Tailwind CSS, Daisy UI, Git, GitHub, JavaScript, React Router DOM, ReactJS, Next.js, Bootstrap, Redux.
- **Comfortable:** Flowbite, Tanstack Query, JWT, Material UI, Styled Components, Chart.js, Framer Motion.
- **Familiar:** Express.js, Node.js, Axios, MongoDB, REST APIs, TypeScript, and Firebase.
- **Tools:** VS Code, Vercel, Chrome Dev Tools, Postman, Netlify, Figma, Notion, ChatGPT, Trello.
- **Soft Skills:** Hardworking, Active listening, Quick learner, Team player, Time management.

EXPERIENCE

Frontend Developer

[Texon.ltd](#) – Oct 2024 - Present

- Designed and developed responsive user interfaces using React.js, Tailwind CSS, and Material UI.
- Contributed to the creation of e-commerce features, including product listing, cart, and checkout pages.
- Implemented animations and transitions using Framer Motion and AOS for better user engagement.
- Participated in daily standups and sprint planning sessions, ensuring tasks were completed on time.
- Coordinated with backend developers to integrate APIs seamlessly, ensuring smooth data flow.

MERN Stack Developer

[DigitalAdvo](#) – Jan 2022 - Oct(24)

- Developed and maintained the backend for an existing React.js front-end application.
- Enhanced the application by improving mobile usability and upgrading the design.
- Implemented secure user authentication and role-based access control.
- Enhanced website performance, reducing load times by optimizing APIs and database queries.
- Conducted code reviews and optimized existing code for scalability and maintainability.

PROJECTS

Workout: (Fitness booking platform)

SourceCode: [Client](#), [Server](#)

Features:

- A comprehensive admin panel for managing trainers, user requests, and overall platform operations.
- An intuitive and seamless booking process, guiding users from trainer selection to secure payment.
- Built-in communication channels enable smooth interactions between users, trainers, and admins.
- Detailed analytics and reports to track performance, user activities, and platform growth effectively.

Technologies: HTML, CSS, Javascript, Flowbite, Tailwind CSS, React, Node.js, MongoDB, Express.js

Fervent: (Sustainable Material Workflow & Catalog)

Features:

- Implemented a clean layout with strong imagery and concise text blocks to highlight product aesthetics.
- Displayed product categories (e.g., MDF, Antique) with key selling points.
- Organized information into logical sections (Products, About Us, Sustainability) for easy user access.

Technologies: HTML, CSS, Javascript, Flowbite, Tailwind CSS, React, Node.js, MongoDB, Express.js

D-Code: (Modern e-commerce website)

Features:

- Developed a responsive e-commerce platform for a fashion retailer, featuring a categorized product catalog and seasonal promotional landing pages.
- Engineered key user trust elements, including clear display of free shipping, 30-day return policies, and premium support options.
- Built a clean interface intended for easy navigation and browsing by online shoppers.
- Created homepage with a hero banner to promote seasonal collections and drive sales.

Technologies: HTML, CSS, Javascript, Flowbite, Tailwind CSS, React, Node.js, MongoDB, Express.js

EDUCATION

Session: July 2023 - Present

Department of Mathematics (BSc)

National University
